El Khroub, Algeria

[Portfolio](#)

Professional Objective

Computer engineering student, passionate about artificial intelligence and data science. Particularly interested in machine learning, computer vision, and intelligent systems. Curious, rigorous, and self-directed, I constantly seek to deepen my technical knowledge and take on new challenges through concrete projects.

Education

École Supérieure en Sciences et Technologies de l'Informatique et du Numérique (ESTIN)
State Engineer's Degree in Computer Science
2022 – 2027

First Year of Higher Cycle in Computer Science

2024 – 2025

Preparatory Cycle in Computer Science

2022 – 2024

Baccalaureate – Kateb Yacine High School, El Khroub

2022 | Experimental Sciences | With High Honors (16.9/20)

Projects & Personal Achievements

February 2026

Email Assistant

Development of an intelligent assistant for email management and drafting, using AI for text analysis, response suggestions, and automation of repetitive tasks, with a particular focus on context understanding and communication efficiency.

December 2025

Email-EU-Graph Platform

Communication network analysis and visualization platform based on emails, using AI for link prediction, department classification, and generation of interactive graphs for relationship analysis.

June 2025

Intelligent Travel Agency Platform

Intelligent travel management platform built during a hackathon, offering personalized recommendations and optimized trip planning through artificial intelligence.

April 2025

2nd Place – National Competition "AI & Cybersecurity" – M'sila University

Award obtained at a national competition featuring AI and cybersecurity challenges. My role consisted of solving AI-related problems and designing algorithmic solutions for the various proposed challenges.

2024

EduPlus – Intelligent E-Learning Platform

Online training application integrating an AI-based recommendation system to personalize the learning experience.

Experience

Primaria Tech

FullStack Developer
Nov 2024 – Present
Remote

Development and scaling of the DAMALL platform (web application and admin interface), performance improvements and continuous deployment of new features.

Freelance

Data Analyst
June 2026

Conducted full statistical analysis pipeline for a PhD researcher in plant biology, producing publication-ready outputs including two-way ANOVA, PCA, correlation matrices, for drought tolerance rankings.

Algérie Télécom

Intern
Jun 22 – Jul 21, 2025

Study and analysis of network infrastructures (ONT, OLT, fiber optic, and supervision systems), documentation of FTTH architectures.

Freelance

FullStack Developer

Design and development of an operations management system, machine tracking, and report generation via an intuitive web interface.

Certifications

Coursera
DataCamp
DataCamp

Machine Learning Specialization (Andrew Ng)
Associate Data Scientist Certification
AI Engineer for Data Science Associate

Technical Skills

- Programming Languages: Python, JavaScript, TypeScript, SQL, Dart, C, PHP
- Frameworks: React, Next.js, FastAPI, NestJS, Node.js, Flutter
- Databases: MongoDB, MySQL, SQLite, PostgreSQL, Redis
- AI / Data Science: Scikit-learn, TensorFlow, PyTorch, Pandas, NumPy, Matplotlib, NetworkX
- DevOps & Cloud: Docker, CI/CD, Linux, GitHub Actions

Languages

French C1 (TCF)
English B2 (EF SET)
Arabic Native
